Dear Hiring Manager,

After going through the 16-week Web Developer Bootcamp program with Awesome Inc, I came across your Software Developer position on LinkedIn. Based on my experience, I believe I am extremely qualified for the position and would be a great addition to your team. The bootcamp was a full-stack development training program with a collaborative environment where students were challenged with learning new material and programming languages while adhering to multiple projects per week. Once the bootcamp concluded, students had gained experience in PHP, MySQL, HTML, CSS, JavaScript, MVC design patterns, React, Laravel, and Agile methodologies, all of which can be found on my portfolio linked above. I enjoyed rising to the challenge and loved working in an environment where collaboration was encouraged. Furthermore, I gained critical experience communicating ideas to other developers, creating documentation such as a minimum viable product, and practicing communication skills during daily standup meetings and weekly demonstrations. For these reasons, I believe I would not only shine in your Software Developer position, but find the work very fulfilling.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Chancellor Whitaker
